ONE MAN'S OPINION

What subject would
you like to see added
to our school, and
why?

Chemistry, because
if you should go to
college, a knowledge
of chemistry will be
a big help.

Robert Brannon
I would like to see
driver's education in
M.H.S. because it is
a needed subject.

Donald Jordan
Chemistry

La Juan Hunter
Trignometry, because
it would better pre-
pare us for college.

Troy Rogers
Driver's education,
so more high school
students could get
their drivers license
while their fathers
are off working.

Phyllis Griffin
Science, because I
like it and it is very
interesting.

William Giles
Chemistry, because
I think it would put
some life into things

Loretta Sims
A subject of law.
Because, I would like
to know some law.

Albert Dossier
Chemistry, because
I think it would be
an interesting course

Ruth Graham
Driver's education,
because the ones that
don't know how to
drive can learn.

**JUNIOR BOYS APPEAR
IN STARTLING GARB**

"Dig those crazy
new pants! Odd! New!
Different!" These were
just a few of the re-
marks made when Don
McLain and Ray Dear
Carden wore their new
trousers.

They wore them for
the first time when
Malakoff played Tri-
nidad here. Not every-
one agrees that they
looked good, but where
difference is concer-
ned they top the list

They are light blue
denim with elastic
waists. According to
what happened to Don
in the hall, when he
wore them to school
the first day, they
are hard to keep on
and easy to lose!

The first time they
sported this new fad,
Don and Ray Dean wore
white shirts with
black string bow ties

Someone said they
were called putter
paints. What will they
think of next! May be
the start of a new
clothes fad.
